The TRUST Parish Nurse program works with individuals to bring together spiritual, emotional, and physical health to achieve wellness and manage illness through holistic care. Combining nursing and ministry, here are some of the activities done by the parish nurse throughout the year:

- Home visits and phone check-ins on elderly and ill
- Home services, adult daycare, assisted living, transportation, grocery delivery, and mental health services
- Work with the community, hospitals and social workers to provide assistance for those in need
- Educational presentations to TRUST congregations, service providers, and volunteers
- Consult with clergy of TRUST congregations and assist churches in developing a parish nurse program
- Serve on TRUST congregations' community care committees and health cabinets
- Provide consultation to other TRUST programs (Chore and Meals on Wheels)
- Recruit and provide monthly training for parish nurse volunteers
- Provide staff for the TRUST Youth Program

Both Caritas Vocal Ensemble and TRUST, Inc. are 501(c)(3) nonprofit organizations.
