Someone swaps Bud's Viagra with Venusia for women, and we soon discover it has a strange effect on men. It gives them all the symptoms of a menopausal woman, complete with hot flashes, mood swings, uncontrollable weeping and irritability. Laugh along as we see what happens next. Written in the style of the Golden Girls Meets Grumpy Old Men, this hysterical comedy/drama is filled with mayhem, mischief and mood swings. The production is sure to entertain, enlighten & charm. However, despite the title and the subject matter, the production is in good taste. Not vulgar at all and not a curse word anywhere. "You'll laugh, you'll cry at this play" KPSP News - Phoenix
